DETAILED ACTION

Response to Amendment

1. This action is responsive to an amendment filed on 05/20/2009. Claims 1-16 are pending.

Response to Arguments

2. Applicant's arguments filed on 05/20/2009 remarks have been fully considered but are moot in view of the new ground(s) of rejection which is deemed appropriate to address all of the needs at this time.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 15 and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear and confusing as to what is the claimed “an internal current production unit to apply an internal current from a loop voltage generated when the external terminal is in connection with the telephone network to the main terminal” (e.g., see claim 15, lines 4-6).

Art Unit: 2614

According to the original specification, it teaches that an internal current production unit to apply an internal current from a loop voltage generated when the external terminal is in connection with the telephone network via the main terminal (see fig.3).

Since claim 16 is dependent claim, this claim is also rejected under 35 U.S.C. 112, second paragraph.

Allowable Subject Matter

5. Claims 1-14 are allowed.
